

Workplace Pensions & Auto Enrolment

We can help you become auto enrolment compliant

Relationships built on trust and support

We can help you become Auto Enrolment compliant...

We have already helped various businesses implement and run Auto Enrolment and we are now in a position to offer a personalised solution that complements our payroll bureau service.

We can on your behalf

- Assess the workforce
- Auto enrol the employees
- Provide information to the pension provider and employees
- Process the pension deductions and opt outs
- Report back to the pension provider
- Assess before every payroll process

We can also communicate with your employees, new starters and with employees who become eligible throughout the year.

You can nominate us as a second contact with The Pension Regulator.

We can provide you with a list of Independent Financial Advisors (IFAs) we work with, to assist you in choosing a pension scheme or you can deal directly with a pension provider or an IFA. Alternatively we can assist or train you with your own payroll software and we can also provide you with competitive prices should you decide to purchase or upgrade your own payroll software.

If you would like to attend one of our regular Auto Enrolment workshops or require any further information please contact Angela Carr at a.carr@bprheaton.co.uk or Elaine Simmons at e.simmons@bprheaton.co.uk or call us on 0113 257 4506.

Key point

We strongly recommend that you start the process now if you haven't done so already.
